

YOUR GUIDANCE HEADQUARTERS

Speed and accuracy are key to improving your productivity. Now you can work faster and more efficiently with AgGPS® Autopilot™ guidance systems that automatically steer your tractor, combine or sprayer so you can concentrate on in-field applications.

**It all adds up:
less time + higher yield =
money in your pocket.**

- Allows operation up to 24/7 in any lighting condition, dust or fog
- Consistently adheres to your chosen field pattern with accuracy from within 1 to 10 inches, depending on the system you select
- Works equally well on hilly or flat land
- It's simple: push button to engage; turn wheel to disengage
- No more "guess rows", overlaps or skips
- Work the entire field without wasting time or fuel
