

# INCREASE YOUR YIELD DOWN TO THE SQUARE INCH.

## Reap the rewards of 1" year-to-year repeatability from plant to harvest – any field pattern.

An AgGPS® Autopilot™ guidance system extends your operating hours so you can work when you need to, and maximize the precision of your rows. Realize payback in terms of hours of your time, yield per acre and dollars added to your bottom line. A system would include:

- **NEW! The EZ-Guide® 500** lightbar guidance system with internal GPS
- **The AgGPS NavController II** for precise steering control
- **The AgGPS RTK base station** to deliver 1" year-to-year correction
